## PROJECT MANAGEMENT FEES

At the conclusion of the design fee/hourly process, project management fees will be implemented on either a room design or a construction design. This percentage is based on your scope of work and can range from 10 -18%.This flat fee will cover ordering, order follow up, correspondence, emails, phone calls, coordination and site visits along with final installation of your project based on the initial scope of work. Any additional design work will be billed at an hourly design rate.

## ESTIMATES + PROPOSALS

We will coordinate & prepare estimates for installation services provided by our installers and contractors for your project at no charge. We will charge a design fee and/or hourly design rate for the preparation of design plans/concepts, selection of items (carpet, furniture, fabric, color, etc.) specific to your project.

## WHAT WILL WE DO AT OUR CONSULTATION?

### ONE HOUR WALK-THROUGH OF YOUR SPACE

Our consultations last up to one hour, we will walk through your home where you get to show us your "ugly" and we get to tell you, how we can fix it.

### REVIEW OF INSPIRATION + BUDGET

We will share with you our thoughts on splurges vs. saves, how to budget appropriately for your space, and possibly present some options you may not have previously considered. We will review any Pinterest boards, Houzz Idea Books or other sources of inspiration for your space so we have a clear understanding of the look you are hoping to achieve.

### MEASURE + PHOTOGRAPH

Our Junior designers may take photos, measurements and ask for your best contact information.

### DELIVER ESTIMATE

Our goal in the first meeting is to educate you on your options and provide you with an estimate of design time needed to complete your project. Your estimate should be completed within 48-72 hours.
